**Attention:** When using this product, please change your Input Method Editors (IME) to English input mode.

## VI. Function Description

1. Power switch: push up to "ON" to turn on the wireless presenter, push down to "OFF" to turn off the presenter.
2. Page up key : click to page up, long press to play slides from the current page. Long press again to end slide show.
3. Page down key : click to page down, long press to enter black screen, long press again to exit black screen.
4. Physical laser key : Press and hold to turn on the physical laser beam, and release to turn off the physical laser beam.
5. Volume key: Press "+" to increase the volume, and "-" to decrease the volume. Long press will continuously increase or decrease the volume.
6. Hyperlink key : Pressing  is equivalent to the Tab key, which allows you to jump between hyperlinks in PowerPoint

presentations in full screen presentation mode. After jumping to a hyperlink, double clicking  is equivalent to the Enter key on the keyboard, which will execute the Enter function to open the hyperlink. Long press and hold the  key, which is equivalent to the Alt Tab key, to execute the Alt Tab function and switch between open application windows, allowing you to switch back to the PowerPoint full screen presentation window. The hyperlink function can be used in PowerPoint, but Kingsoft WPS does not support Tab key to switch hyperlinks, so hyperlinks cannot be opened.

7. The wireless presenter fully supports PowerPoint, Keynote, Prezi and other commonly used software. It supports page up and page down keys' function switching. The page up and page down keys correspond to the function of the up and down arrows on the computer

keyboard by default and it supports page up and page down for PowerPoint and Keynote. For the first time when you press the page up and page down keys simultaneously, the function will be switched to the left and right arrows on the computer keyboard, supports page up and page down for Prezi. For the second time when you press the page up and page down keys simultaneously, the function will be switched to the Page Up and Page Down on the computer keyboard, supports page up and page down for internet browser and Microsoft Photo software. For the third time when you press the page up and page down keys simultaneously, the function will be switches to the default up and down arrows on the computer keyboard.

8. The page up/down keys can be customized by Norwii Presenter software.

## VII. Installation

### 1. Install the battery

The product is powered by a No. 7 AAA battery. After opening the battery cover, place a No. 7 AAA battery and then close the battery cover (as shown in the picture) :

### 2. Take out the USB receiver and install.

Plug the receiver into the computer USB port. The operation systems including Windows, Android and Linux will install the driver for the USB receiver automatically.

(Take out the USB receiver)

(The USB receiver into the computer USB port)

3. Control the computer by operating the wireless presenter's keys.
4. Turn off the wireless presenter.

## VIII. Frequently Asked Questions

**1. How to download Norwii Presenter software and how to pair the presenter and the USB receiver?**

For products that support key function customization or highlight serial products that support digital laser, highlight, magnifier, you need

to download Norwii Presenter software. Please download it from the "Downloads" under the "Support" menu of Norwii official website [www.norwii.com](http://www.norwii.com) in English version.

## **2. How to know if the battery is out of power?**

When the power is turned on, if the wireless presenter key is pressed and the LED indicator light does not indicate, it indicates that the battery is low. Please replace the AAA battery.

## **3. What if the laser doesn't light up or becomes dim?**

After turned on the power, press the laser key, the LED will light up, but the laser does not light up, it means that the laser module is damaged. If the laser spot becomes dim, it may be due to low battery power. If the wireless presenter still be dim after replacing a new AAA battery, the laser module is damaged. Please contact us for after-sales repair.

**4. What if the USB receiver is plugged into the computer's USB port and the computer does not respond or cannot recognize it?**

Please check whether the USB port of the computer is working properly and try another USB port. If necessary, please try another computer to check that the problem is with the computer or USB receiver.

**5. The laser is normal, and the USB receiver can be recognized by the computer, but all functions of the wireless presenter cannot be used properly?**

Usually Pairing can solve this problem. Please download the Norwii Presenter software and follow the Pairing instructions in the software, or you can contact our after-sales service.

**6. How to adjust the settings for Norwii Presenter on macOS?**

On Apple's macOS, the Norwii Presenter software requires three

permissions: Accessibility, input monitoring, Screen & System Audio Recording. If it has not been set before, please click "Grant Permissions" in the "About" tab of the Norwii Presenter software, and then open the corresponding permission settings in the window that opens. You can also check the box in front of the Norwii Presenter software in the above three permission settings in the "Launchpad - System settings – Privacy & Security – Accessibility, input monitoring, Screen & System Audio Recording" of macOS.

## **IX. Certifications**

CE, ROHS, FDA

FCCID: 2AXGRN95

Declaration of conformity

This laser product complies with IEC/EN60825-1:2014. Complies with 21 CFR 1040.10 and 1040.11, except for deviations pursuant to Laser Notice No.50, dated June 24, 2007.
